

Our 1st Year Was A Great Success!

Thanks to our many friends and clients, **INFORMA ENERGY** has seen great success in our first year of operation. We expect that 2010 will be even better, as we expand to meet your energy needs.

Our partnerships with various energy supply sources and energy conservation firms will continue to provide new options for reducing your costs. In addition to our core business, we are researching solar power options for our clients. Lighting and lighting retrofitting will be an exciting new division of **INFORMA ENERGY** in 2010. We will announce the details shortly. Many of you have expressed an interest in those areas, and we are adding industry professionals to our pool of resources. Please go to www.informany.com to see additional services.

You will continue receiving our "Weekly Energy Report" to keep you updated on market events. Our recent ad campaign has also increased our exposure to forward-thinking clients like you.

As always you can reach Janet Garofalow ([646-320-2341](tel:646-320-2341)) and Lou Romano ([917-709-3252](tel:917-709-3252)) on our cell phones. Or you can contact us via our new e-mail addresses: lou@informany.com and janet@informany.com.

In addition, our new toll free number [1-888-404-6462](tel:1-888-404-6462) can be used to contact our office staff. Arlene Alvira (arlene@informany.com) is our Office Manager. Arlene is developing our technologically advanced computer system along with assisting our clients and sales agents.

We have enjoyed working toward your goals this year and look forward to supporting you on your various energy projects in 2010.

All the best!

Lou Romano and Janet Garofalow
Informa Energy, Inc.
